

Government Operations Committee
Tuesday, July 11, 2006 at 5:00 pm
City Council Chambers

AGENDA

1. Status Report/Update Regarding Club Gemini Operations, 190 Harlow Street

Committee members had previously requested that an update regarding operational issues at Club Gemini be scheduled for early June. Due to scheduling conflicts, a suggestion was made to move the discussion to the first Committee meeting in July. The owners of Club Gemini and other interested parties have been notified and invited to attend.

2. Request to Hire a Part-time Grant Manager at Health and Welfare

Health and Welfare Director Yardley is requesting permission to hire a part-time grant manager. Please see attached memorandum outlining the benefits and justification for the position.

3. Public Health Infrastructure Update

Health and Welfare Director Yardley will brief the Committee on several collaborative efforts involving the City of Bangor, the State of Maine and various local public health partners. Please see attached memorandum providing further detail.

4. Proposed Drug and Alcohol Testing Policy for Safety Sensitive Positions
Subject to
Federal Transit Administration (FTA) Regulations

As operator of BAT/Community Connector, our local public transit system, the City of Bangor is required to comply with Federal Transit Administration regulations governing drug and alcohol testing procedures for identified safety sensitive positions. The City's current Policy for FTA purposes is outdated and a new policy has been drafted which will meet the various Federal requirements. Bob Farrar will present the Policy and lead a brief review of the contents. A copy of the Policy is attached.
